WELCOME MESSAGE FROM THE PRESIDENT

CSSD is a dynamic field, information and technology are constantly changing. Regular updates on regulation and procedural innovation are crucial for keeping us working in this field abreast of changes and for building and maintaining an efficient, safe work process and environment.

Year 2025 was indeed eventful and challenging that kept us busy and demands constant knowledge and skill upgrading relating to sterilization services. The theme, **'ARTIFICIAL INTELLIGENCE TO IMPROVING QUALITY OF STERILIZATION PROCESS'** focus on excellent service for sterilization practitioners. Related topics and discussion from well known professional and actual implementers are included in this conference for members to share and gain knowledge and experience.

So dear participants, take advantage of this great opportunity to gain as much knowledge and skill possible and make full use of the networking provided.

I would like to take this opportunity to extend my sincere thanks to the Ministry Of Health Officials, Nursing Division for their continuous support. My utmost appreciation to the committee members and corporate members who have given their valuable time, support and energy to make this association a facility with pride.

'Sterilization is Our Concern'

Warmest regards,

MADAM KAMARIAH JUSOH A.M.N
